Jonah, 20 · $45K income · $600K home goal in 15yr · medium risk Edit profile Re-evaluate

THIS MONTH'S HIGHEST-LEVERAGE ACTION

Increase emergency fund to 6 months

Jonah, the analysis shows your savings rate of 31.3% is strong, but your liquidity of 3.0 months is below the recommended 6 months. Increasing your emergency fund to 6 months is the highest-leverage move, improving your goal probability by 1.5% while adding 3.0 months of liquidity. This action supports your goal of home ownership by enhancing your financial stability.

The top action scored 1.00, primarily driven by a +1.48% goal delta, which carries significant weight under your medium risk profile. The liquidity delta of +2.97 months further emphasizes the importance of this action in improving your financial position.

goal probability +1.5%, liquidity +3.0 months. Confidence 85% 3 risk warnings

WHAT WASN'T RECOMMENDED

Reducing your equity allocation by 15% scored 0.23, with a negative goal delta of -2.32%, which detracts from your home purchase goal. Increasing your monthly contribution by 10% scored 0.21, improving goal probability by only 3.49% without addressing liquidity concerns.

RISK WARNINGS

- ⚠️ Your current liquidity of 3.0 months is below the recommended level, which could pose risks in unexpected situations.
- ⚠️ Under recession conditions, your goal probability drops significantly to 55.9%, highlighting the importance of liquidity.
- ⚠️ Your equity allocation of 100% exceeds the medium-risk target of 55%, increasing exposure to market volatility.
